Shivraj Singh Kushwah

Indore, Madhya Pradesh, India
8964029201 shivraj2726@gmail.com LinkedIn GitHub

Education

IPS Academy, Indore **2023 – 2027**
Bachelor of Technology in Computer Science *Indore, Madhya Pradesh*

Morning Star CBSE School **2022 – 2023**
Higher Secondary Education (Class XII) *Ratlam, Madhya Pradesh*

- Completed Class XII with PCM stream and scored 78%.

Experience

Software Development Intern, Swasthya Chetna **2026 – Present**
Remote

- Contributing to the development and maintenance of web application features.
- Collaborating with team members using Git and modern development workflows.
- Working with frontend, backend database technologies in a professional development environment.

Projects

Team Collaboration and Task Manager | *React, Django, DRF, PostgreSQL, Redis, Docker* **Live Demo**

- Developed and deployed a full-stack team collaboration platform featuring team management, Kanban-based task tracking, real-time chat, role-based access control, notifications, and activity logging.
- Implemented JWT authentication, RESTful APIs, and WebSocket-based real-time messaging using Django REST Framework, Django Channels, and Redis.
- Integrated Cloudflare R2 object storage for file uploads and Dockerized the application using Docker and Docker Compose for consistent development and deployment.
- Deployed the frontend, backend, and PostgreSQL database on Railway and configured the application for production use.
- Implemented a CI/CD pipeline using GitHub Actions to automate testing, build validation, and deployment workflows.

E-Commerce Web Application | *React, Django, JavaScript*

- Developed a full-stack e-commerce platform with user authentication, product catalog management, and shopping cart functionality.
- Built responsive frontend interfaces using React and reusable component architecture.
- Integrated Django backend APIs for product management and application data handling.
- Implemented scalable application structure following modern full-stack development practices.

Bank Management System | *Python, OOP, JSON*

- Developed a console-based banking application using Python and object-oriented programming principles.
- Implemented account creation, deposits, withdrawals, balance inquiries, and transaction management features.
- Used JSON-based persistent storage and file handling for secure data management.
- Applied modular programming and validation techniques to improve maintainability and reliability.

Technical Skills

Languages: Python, JavaScript, SQL, HTML, CSS
Frameworks/Libraries: React.js, Tailwind CSS, Django, Django REST Framework (DRF), NumPy, Pandas, Matplotlib
Databases: PostgreSQL, SQLite
Tools: Git, GitHub, GitHub Actions, Docker, Docker Compose, Postman, VS Code, Jupyter Notebook, Railway
Concepts: Data Structures, OOP, REST APIs, Authentication, WebSockets, Database Design, Full-Stack Development, Deployment

Relevant Coursework

Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Object-Oriented Programming (OOP), Operating Systems, Computer Networks

Certifications

NPTEL - Python for Data Science **2026**
Scored 80% *Online Certification*

Google Cloud Arcade **2026**
Cloud Learning Program Participant *Google Cloud*
